

MEDRISER™

FlexSeries

Padded "Flex" Knee/Shin Plate improves patient comfort

500Lb Sit to Stand Lift

- Electric—powered electric lift (height and base) will support up to 500lbs and can be used in various transfer situations.
- "Flex" Kneeadapted from our specialty seating line the pressure relief strapping and pad aids in providing superior comfort to leg and knee during transfer.
- Optional scale to easily weigh patients.
- Multiple Sling Bar Options — Easily change the sling bar to help enhance resident comfort and support based on clinical preference.
- Removable "Padded" Foot Rest — enhanced comfort with soft foam removable foot rest which aids in safety due to textured design.
- Dual controls - controls on the pendant and control box allow the lift to be operable at any time.
- Ergonomics— enhanced thicker push handles with bottom "kick" support bar for additional leverage and staff safety.
- Made in the USA — an affordable quality lift solution committed to keeping inventory and parts on hand. (no customs or long lead times).
